

## **Our Classroom Standards:**

AP<sup>®</sup> Computer Science, Fall 2011, Period: 6

### **What do they mean to us?**

**Respect:** respect and encourage fellow students, yourself, and the teacher, allowing us to benefit from all our contributions.

- There are no stupid questions
- Don't be condescending
- Be nice, be safe & have fun
- Give constructive criticism
- Use the "Compliment Sandwich": one compliment, a correction, followed by a second compliment
- Consider the impact of your actions – don't be disruptive in class.
- Don't talk while others are speaking

**Safety:** always act safely, follow safety procedures, and help others to act the safest; the limb you save may be your own.

- Log off
- Take your time saving your files
- Backup your work
- Lock down your work – save in a secure area

**Learning:** participate in the learning process by listening to, suggesting and trying out new ideas.

- Be prepared for class
- Always make an effort on the work
- If at first you don't succeed try, try again
- Actively listen and participate

**Teamwork:** assist other by sharing your skills cooperatively to help everyone succeed.

- Help others out that are struggling
- Hear everyone out before proceeding
- Share the workload and focus on what folks do best
