Exploring CS Survey Results (Fall 2012)

"How I learn best" Comments:

- More comfortable and confident in my work if I were to work with someone I know. I think I generally work better and quicker with people I already know and I only know one person in this class. With my friend so we can help each other.

- if it's at all possible I'd prefer to work alone; I like to work in groups of 3; I like activities where the whole class is involved in

- Supplementary reading for lessons

- A visual learner, so it is easier for me grasp a concept when I am doing a task that is hands on or is explained through pictures.

Career Interests:

Great Variety (which is great): Aerospace Engineer, Architect, Fashion design, Fisherman, Lawyer, Lotto Winner, Professional Athlete, Psychologist, Stem Cell Research, Video Game designer, Web Comic Designer and others! Wow!!

Technology Interests:

- Web Pages/design

- Programming, Game design, APP design

- Building computers now to make my machine faster

- Graphics applications, Photoshop & Video editing

- Business end of technology and Office applications

War Games Movie:

Most Nope, have not seen it (2 - Yes, I enjoyed it, 1 - Yes, did not like). Other Suggestions: Tron, Office Space, Apollo 13, Transformers, 2001: Space Odyssey, & Matrix
