

Student: \_\_\_\_\_ Period: \_\_\_\_\_

## FINAL PROJECT Website Project (Total: 30 Project Points)

**Student Status** - Tell me the Status of your project:

- Tell me if your website is complete or if there are pages or features that you did not have time to finish. If it is not ready for grading, tell me when it will be completed and why it is late.
  - Tell me what is the coolest thing that you are the most proud of on your final project.
  - Add anything else I should know about your website before grading.
- + If you need more room to write, use the back of this page.

## FINAL PROJECT Website evaluation criteria: (Total: 30 Project Points)

### Design & Topic: (8 Points)

(\_\_/3) – design work done before implementation – design sheet completed before you started major work

(\_\_/2) – clear topic – well defined and Student Status reported at completion (above).

(\_\_/3) – rich information about topic – plenty of good details

### HTML Design: (15 Points)

(\_\_/4) – at least four HTML pages with clear, different focus

(\_\_/3) – obvious and consistent (same) way to navigate between pages

(\_\_/4) – Source information is displayed for images & text with links to their original website on every page

(\_\_/2) – HTML is correct (all tags are closed, all tags are valid, etc)

(\_\_/2) – good use of class time (sustained effort, no off-task)

### Styling: (7 Points)

(\_\_/3) – Good visual design of site – readable, clean design, and good color choices

(\_\_/3) – CSS applied to at least 5 different elements or classes in an external style sheet

(\_\_/1) – CSS is correct (all curly braces closed, all rules are valid)

\_\_\_\_\_ Total (out of 30)

Comments: \_\_\_\_\_
